

LA JEUNESSE YOUTH ORCHESTRA
Parent Participation Program
2011-2012

La Jeunesse Youth Orchestra provides a huge opportunity for music educational development for your member student but this can only happen if parents participate in support roles. Parental support makes a positive statement to each and every LJYO member when they see their parents involved with the orchestra. You can demonstrate to your member how important you believe music education is by becoming involved. A detailed list of parent participation roles for concerts and for general orchestra operations will be available on registration day. Parents will be asked to sign up for both categories.
